

# OFFICIAL RULEBOOK

## NAMBA DISTRICT 3 SUNSHINE R/C BOAT RACERS, INC.

*This Rule Book works in conjunction with the NAMBA Rule Book.*

*This book supersedes any other rule book; including but not limited to,  
the NAMBA Rule Book.*

**The following rules are the only  
alterations or modifications allowed to the  
NAMBA rules for District III High Points  
races.**

**No other modifications or alterations are permitted.**

**December 2017**

### **Organizational**

- 1. All changes to the running of District III will be posted on the D3 Forum for a thirty-day discussion period followed by an on-line vote. If changes are needed a head of time, they will be considered temporary until an on-line vote is held by the membership.*
- 2. All items to be discussed must be submitted to the District Director for approval. All items submitted must have the names and NAMBA numbers of five supporting members of the district. These items are then to be placed on the D3 Forum for a thirty-day discussion followed by an on-line vote.*

3. ***Board of Directors with voting privileges will consist of District Director, Assistant Director(s), Treasurer, Scale Director, Thunderboat Director, Offshore Director, Secretary, Points Director and Webmaster (only if active D3 member)***
4. All Board of Director and administrative positions will be filled by appointments from the District Director.
5. The District Director and District Board of Directors will handle all disciplinary actions.
6. The Directors of the District have the last word on all District 3 race matters. The appropriate Director will be in charge of the matter at hand. If the appropriate Director is not present, then the Board of Directors and the District Director will decide the appropriate action.
7. ***Each NAMBA District 3 registered Club President will have one vote in conjunction with the voting District Board of Directors on all District 3 administrative decisions.***

## **General Rules**

1. Contest Directors are required to have a copy of the District 3 and NAMBA National rules on site at all High Points races.
2. ***The District Rulebook will be updated within thirty days of a change to the rules after an on-line vote and prior to the next years High Points racing series commencement. New rules or changes to rules will be listed in bold italic type. Those changes will be in effect when the District 3 rules are amended in writing and posted on the District 3 website.***
3. Hosting clubs will remit back to the District a \$3.00 per boat fee for each boat entered in all classes run at each District 3 High Points race.
4. A newly formed club will be excused from remitting the District 3 boat fee for its first High Points race.
5. ***All clubs holding High Points races must submit the three-dollar per boat fee within ten days following each race to the District Treasurer. Those clubs that fail to do so will be charged a 10% late fee on the total monies due. Clubs who do not send in the boat fee money and any applicable late fees within 30 days will be placed on suspension and the District Board of Directors will decide penalties to impose on said club. There will be a \$25.00 fee charged for checks returned for insufficient funds.***

6. ***Chain link fencing around the lake, pits, launch area and in danger areas are mandatory at all NAMBA approved race sites.***
7. Non-District High Points races (i.e. fun runs, club races) will not be scheduled on the same weekend as a District High Points races. Approval from the District Director is required for the scheduling of these types of races or events.
8. Each NAMBA District 3 registered Club President or Club Appointee and the voting District Board of Directors will construct the upcoming race schedule for the following year. No additional High Points races will be added to the race schedule for the year once the voting District Board of Directors and the Club Presidents or Club Appointees have approved the race schedule. If a club is unable to host a race that has been scheduled, another club may host that race in its place pending the District Director, voting District Board of Directors, and Club Presidents or Club Appointees approval. Rescheduling of any race will require the approval of the District Director, voting District Board of Directors, and Club Presidents or Club Appointees approval.
9. ***District High Points races are to be two (2) day races. All classes offered are to be run on each of the race days so as to any one particular class to only run on any one given day will not be permitted.***
10. Clubs may charge a late fee for late and/or unpaid entries. The late charge is to be determined by the host club.
11. At least one (1) bathroom will be in place for racers access in the working pit area. It may be a fixed facility or a portable unit.
12. Information about District III will be posted on the District III website.
13. Additional fee on top of the usual first boat fee and additional boat entered fee, for entry in a District III High Points Series race will be optional and cannot be made mandatory or required to race/participate at that event.
14. Each club will provide accommodations for racers with disabilities. Each High Points race entry form will contain a check box stating “handicapped Parking Required”. It is the responsibility of the racer involved to bring the necessary requirements to the attention of the CD prior to the race weekend. The racer must be provided the closest pit and parking space to the Hot Pit and Launch area as possible. The racer will be required to provide the CD with the appropriate documentation upon arrival at the race site to be eligible for the reserved space.
15. All race entry forms must include alternate frequencies where applicable. Frequency preference is awarded by entry postmark.

## **Heat Racing**

1. All District High Points races are required to be NAMBA sanctioned. The District Director will sign and forward to NAMBA all properly completed race sanction forms with the required fee. These forms shall be sent to the District Director prior to December 20<sup>th</sup> of the year preceding the up-coming race season.
2. A sanctioned High Points race that has approval to change the race date or site is required to send an updated sanction form directly to NAMBA at a minimum of thirty-days in advance of the race if possible.
3. ***A minimum of the following High Points classes are to be offered at all District III High Points races shown on the District III website under the “High Points” tab.***
4. There must be a minimum of three (3) paid entries for any class to be considered legal and to be run for District III High Points. The three boats must be in the hot pits and attempt to run the first heat.
5. District III High Points races will consist of 4 rounds of racing, time permitting.
6. Either a full course mill pattern or full mill/half course mill combination with 30-second clock may be utilized at all District III High Points races.
7. A visual or audio clock may be used for the starting of all District III High Points races at the discretion of the host club. The type of clock used must be specified on the race flyer.
8. The official course for District III High Points races will be marked with 5 turn buoys at each end. The host club will determine the radius of the course to best fit the lake size.
9. All boats are required to use a quiet pipe or muffling device to reduce the decibel (db) level to 95db or less while being operated a wide open throttle. The db meter is to be located 50 feet from the edge of the water and 50 feet towards the start/finish line from buoy #1. If a boat exceeds this limit, the racer will have until the next heat that the hull in question will run in to bring the hull into compliance. Simple exhaust diverters on stingers of nitro style pipes or water injection into the exhaust system by itself will not be considered a muffling device.
10. Boats may be restarted when they quit running upon launching provided they can be safely reached with a retrieve pole. No wading out or the use of tennis balls and line are to be used for the retrieving process during District III High Points events.

11. No boat may be restarted if it has successfully launched and operated on the course. Re-needling or making adjustments on the bank by bringing the boat in will not be permitted.
- 12. *Boats may be launched if engine(s) are operating, cowling is installed and off the table at the expiration of Pit Time.***
- 13. *Anyone who launches their boat in a wrong heat regardless of whether the boat starts the race or not will be disqualified from running in their correct heat in that particular round. No Exceptions.***
14. The Contest Director may restart a heat that is disrupted by unsafe conditions. Only boats still operating at the time of the decision will be permitted to restart.
15. Boats may not cut the course unless directed to do so by the Contest Director.
16. After the start of a heat where only one boat remains running, that boat will be awarded first place points after completing the lap it is currently on plus one additional complete lap. In the event that the remaining boat is currently on its last lap, an additional lap will not be required.
17. When a boat is found to not conform to the rules in a given class, the changes needed will be requested by the class Director. These changes will be placed in writing. A copy of the written request for the change will be given to the racer and kept by the appropriate Director. The change request will include a time limit that the racer must adhere to. If the change has not been made in the required time limit, the boat will not be allowed to race until the changes have been completed.
18. If a boat in any class is known to have an illegal engine, or is found to have an illegal engine, it will not be authorized to be entered into the race whether it be for points or not. Furthermore, if the racer knowingly enters a boat or boats with an illegal engine, they will automatically forfeit their entry fee to the club holding the event. If an illegal engine is found after racing begins, the boat will be removed from the race and no longer be allowed to be used, even if the engine is changed out to a legal engine. All points will be forfeited for prior rounds, and the racers in that class will be awarded the proper positional points, as if the illegal boat had not run in any of the rounds. The offending racer will be reported to the District III Directors, and that racer will no longer be authorized to run in the specific class until they show proof to a District Officer that they have a legal engine in the offending boat. The District Officer will then inform the District Director that the individual is verified to be in compliance with the district rules.

## **Points and Awards**

1. Any club that hosts a High Point race that has not received at least 100 paid boat entries; postmarked 10 days prior to the race date will not be required to provide awards to the race winners.
2. The District High Points awards banquet is to be rotated throughout the clubs of the District.
3. *District High Points awards will be given only to those classes that have raced the minimum required races shown on the District III website under the "High Points" tab. Awards will be given for 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> place winners.*
4. District High Points scoring of any District High Points race will be by using the racers place/position points in the class that they specifically entered in down to 8<sup>th</sup> place if they earned heat points in that race.
5. At the discretion of the host club, a minimum trophy of a medallion or other trophies and awards will be presented at District II High Points series races if there are enough entries per Points and Awards rule #1.
6. All host clubs of District III High Points races will make their best effort to have the points posted in a timely manner at the conclusion of a given round of racing. Points should be posted after each round of racing.
7. If only 2 entries are received for a given class at a District High Points race and at least one entry is a junior or novice boater, the class will be allowed to run. Trophies will be awarded and paid for by the District.
8. The final race for the racing season will be a Double Points Final. Place points for this race will be doubled when tallied for District III High Points awards.  
(Example: 1<sup>st</sup> place 400=800, 2<sup>nd</sup> place 300=600, 3<sup>rd</sup> place 225=450, etc. thru 8<sup>th</sup> place)

### **Mono / Hydro Classes**

1. GX Rigger is limited to outrigger style boats only. No canards, catamarans or sport hydros permitted
2. Rules per NAMBA Rulebook.

### **Outboard Performance Craft (OPC) Class**

1. Third (3<sup>rd</sup>) channel fuel mixture valves are permitted.
2. Rules per NAMBA Rulebook.

## **Gas Powered Classes**

1. G-1 powered boats may run in the GX classes.
2. G-2 and GX-2 powered boats may compete only in the Open Gas Offshore class if the hulls meet the Offshore rule requirements.
3. Engines running in this class will not be required to fall under the “industrial” rule. Displacement is the swept volume of the engine, which is the cross sectional area of the cylinder multiplied by the stroke of the engine and four displacement ranges will be offered within the class.
  - (a) GX-1 will include engines from 15 to 35.99 cubic centimeters.
  - (b) GX will include engines from 15 to 31.99 cubic centimeters.
  - (c) GX-2 will include engines from 26 to 35.99 cubic centimeters.
  - (d) GX-Twin will include two engines or one engine with two cylinders with a maximum total displacement of 64.00 cubic centimeters.
4. Engines in this class must employ spark-induced combustion. Glow plug or compression-induced combustion is illegal.
5. Induction systems may include piston port induction, reed valve induction, rotor-valve induction and drum valve induction.

## **GX Catamaran Class**

1. No outriggers, canards, or sport hydros are permitted.

## **Sport Hydro Classes**

1. A concourse award is optional.
2. Drivers are not required if there is a simulated or painted windshield.
3. Tail fins are not required.
4. Rules per NAMBA Rulebook.

## **GX Sport Hydro**

1. Only three-point hydroplanes and canards are permitted.
2. All Gas Sport Hydros must resemble full scale racing boats and may be of current or historical design.

3. The Gas Sport Hydro front sponsons may have pads or breaks that contact the water at planning speeds. No rear pads or shoes are permitted.
4. Driver's cockpit/simulated cockpit, cowls, are mandatory for Gas Sport Hydros.
5. Open cockpit GX Sport Hydros must use a driver of scale life-like appearance and must be of shoulder height.
6. Gas Sport Hydro heats are limited to six boats.
7. Rules per NAMBA Rulebook.

### **1/8 Scale Unlimited Hydro Class**

1. The Concours Trophy will be awarded at two (2) races only. These races will be determined when the next year's race schedule is set. Clubs not hosting a Concours Trophy are encouraged to make a donation to the district towards the Bud Swenson Trophy, which is awarded at the District III High Points awards banquet.
2. The concours judging will have concluded prior to the running of the C class boats on the first day of racing.
3. There shall be no more than six (6) boats running in any one heat.
4. The use of the Love Plan is preferred but optional.
5. In the event that a part of the boat is lost or damaged beyond repair as a result of a flip or collision, the boat may continue to race that weekend.
6. Hulls must be registered to race.
7. Rules per NAMBA Rulebook.

### **Classic Thunderboat**

1. *Rules per NAMBA Rulebook.*
2. *The stock recoil pull start assembly may be replaced by the factory Zenoah EZ Start pull start assembly.*
3. *The Factory installed M5x0.8 water fittings on the engine may be drilled out to a larger size. The water fitting must not however be replaced by a larger one.*
4. *At the option of the Classic Thunderboat Director the engines in the first, second and third place boats may be inspected at any NAMBA District III race*

*for legality. If the engine is found to be illegal as per these rules, the contestant will be disqualified. All points will be forfeited for prior rounds and racers in that class will be awarded the proper positional points as if the illegal boat had not run in any of the rounds and will serve a two (2) race suspension. If the contestant is found to have an illegal engine a second time the contestant will serve a one-year suspension from the date of the infraction. These suspensions apply only to the Classic Thunderboat Class only and not other classes that the contestant runs in. This rule is separate from and does not conflict from a contestants right to protest any Classic Thunderboat as per NAMBA International Rules.*

## **Offshore Classes**

1. Nitro and Gas boats are not to be intermixed.
2. Engine displacements of A, B, C and X are permitted in Open Nitro Offshore.
3. Engine displacements of G-1, GX-1, GX (up to 31.99cc), G-2, GX-2 and GX Twin which includes two engines or one engine with two cylinders with the maximum total displacement of 64.00 cubic centimeters are permitted to run in Open Gas Offshore.
4. Hull Requirements:
  - a. All boats shall be models of APBA/UIM Offshore boats. These include Deep-Vee, Flat Bottom, Tunnel, etc.
  - b. If the model hull bottom has an angle less than 16 degrees the bottom must be within 5 degrees of the actual hull copies. Proof of authenticity must be documented by actual hull photos or drawings.
  - c. Boats shall have numbers on port and starboard vertical surfaces and one horizontal surface not less than 1 ½” in height.
  - d. Rudders, turnfins, struts and ride plates may be configured and located as desired.
  - e. Tuned pipes will be concealed under the deck, cowl, or hatch as completely as possible.
5. Boats shall have a sponsor or a boat name not less than 1 ½” in height on a vertical and horizontal surface.
6. Boats shall display your NAMBA number not less than 3/8” in height.
7. All offshore boats shall run either the original cowling or a cowling that looks as if it would be an original on an offshore boat. Flotation must be on all cowlings. The cowling may be modified but at least 75% of the deck open area must be covered. If you are running a cowl that is not the original, it needs to be either

painted to match the rest of the offshore boat or have a color match from the original materials it was made from.

8. Hatches with an open cockpit configuration must have scale offshore drivers painted to represent scale drivers. All figures used to represent drivers must look scale in appearance.
9. Hatches with an enclosed cockpit configuration must have canopies painted to look realistic or made of a material to represent scale windshields and will not require drivers.
10. The offshore course will be set up and administered by the club president of the club holding the District III race. It must adhere to offshore rules.
11. The morning of the High Points race, all offshore boats will be inspected by the Offshore Director for rule compliance and the Director will supply the racer with any changes necessary to be legal.
12. ***Cutting the offshore buoy will result in a 100-point deduction. You cannot cut the offshore buoy to gain a position in the race, an attempt to go around the buoy must be made, unless you are called over by the Contest Director, then you may continue on the regular mill course to have a legal start. You cannot cut the offshore buoy to gain a position in a race. You must give up the gained position or receive a one-lap penalty.***
13. Rules per NAMBA Rulebook.

## **Super Boat Offshore**

1. Boats in this class must be 55" minimum in length and 60" maximum in length.
2. Boat hull may be a mono style or catamaran style hull.
3. Boat hull must resemble an authentic offshore APBA/UIM boat or have a paint scheme that resembles a real offshore boat.
4. Boats shall have a sponsor or a boat name not less than 1 1/2" in height on a vertical and horizontal surface.
5. Boats shall display your NAMBA number not less than 3/8" in height.
6. Boats must run hatches that cover full deck opening. Hatches that are not part of the original hull must be in the spirit of the offshore class.
7. Open canopies must have two (2) drivers minimum, painted to represent scale-like drivers in appearance.

8. Canopies with enclosed cockpit must have painted, darkened or blacked out windshields.
9. Tuned pipes will be concealed under the deck, cowl, or hatch as completely as possible.
10. Rudders, turnfins, struts and ride plates may be configured and located as desired.
11. ***Engine displacements of G-1, GX-1, GX (up to 31.99cc), G-2, GX-2 and GX Twin which includes two engines or one engine with two cylinders with the maximum total displacement of 64.00 cubic centimeters are permitted to run in Super Boat Offshore.***
12. Offshore course will be set up according to club and offshore rules.
13. ***Cutting the offshore buoy will result in a 100-point deduction. You cannot cut the offshore buoy to gain a position in the race, an attempt to go around the buoy must be made, unless you are called over by the Contest Director, then you may continue on the regular mill course to have a legal start. You cannot cut the offshore buoy to gain a position in a race. You must give up the gained position or receive a one-lap penalty.***
14. Boats will be inspected by the Offshore Director for rule compliance and the Director will supply the racer with any changes necessary to be legal.

## **Jersey Skiff**

1. Prop shaft and tube must pass thru the bottom of the boat.
2. No fairing on top of prop shaft tube.
3. Strut must be rounded on bottom to prevent it from becoming a ride surface.
4. No hardware will extend beyond 4" from the transom.
5. No skegs or turn fins allowed.
6. Tuned pipes are allowed. Exhaust must exit thru transom. No part of the exhaust may extend more than 1" aft of the transom.
7. Motor will be completely covered. Hood scoops and air vents are allowed.
8. Trim tabs are allowed. No trim tabs with fins or skegs on bottom. Trim tabs can be turned up to prevent hooking.

9. Only GX (up to 31.99cc) gas engines are allowed.
10. Boats must have JS followed by NAMBA number on both sides of hull with a minimum height of 3 inches.
11. Strakes or riding pads are not legal. No keels or chines on bottom. That means the bottom surface is flat and smooth. See Hull Specifications for bottom specifications.
12. Must have two (2) scale drivers in appearance located at transom with a minimum height of 3.5" and a maximum of 4.0" above the deck. Drivers must have a life-like jacket and helmet.
13. Wood / Scratch built hulls are permitted but must simulate the lap strake construction.
14. Hull Specifications:
  - a. Minimum length 49", maximum length 51".
  - b. Width at center of hull 19" (plus or minus ½")
  - c. Maximum width of bottom at transom 10" (plus or minus ½")
  - d. Hull bottom maximum degree of vee at transom one (1) degree.
  - e. Hull bottom maximum degree of vee at center of hull one (1) degree.
  - f. Transom height 6" from bottom of hull to top of deck (plus or minus ½")
  - g. Height of freeboard at center of hull from bottom of hull to top of deck 6" (plus or minus ½")
  - h. Height of freeboard at 10" from bow, bottom of hull to top of deck 6" (plus or minus ½")

### **Modified Nitro RTR Class**

1. All RTR's from all manufacturers will run together.
2. Maximum engine displacement is .18cc.
3. Modified class permits replacement of the engine with an alternate stock engine, or modification of the original engine.
4. Any transmitter may be used.

5. No 3<sup>rd</sup> channel mixture adjustment allowed. Hull modifications are allowed but the hull must remain stock appearing.
6. Wings can be removed and extra wings may be added.
7. Riding surfaces can be sharpened and cleaned up but the dimensions must remain as they were on the stock hull.
8. Turn fin, rudder, strut and prop may be changed to aftermarket.
9. Fuel tank may be changed and relocated.
10. Radio box may be changed and relocated. Engine starting belt may be added. Engine pull start may be removed.
